

FOR IMMEDIATE RELEASE

Novalis Flooring Chosen By Pharmaceutical Giant Fagron

Rotterdam, Netherlands – Novalis dry-back LVT was recently installed in the headquarters building of Fagron, a world leading company in specialty pharma. Over 3000 m² of Burgundy Oak planks embossed in register with a matt UV coating and 0.55 mm wear layer were used to complement the building's open design and natural lighting.

“We are seeing more of our flooring specified for prestigious projects around the world,” observed John Wu, president and CEO of Novalis. “Our reputation for design and sustainable practices, plus the durability of LVT, is getting the attention of designers everywhere.”
